

KYTex®

Direct Roving 058

Product description:

KYTex® 058 is manufactured by direct winding of continuous glass fibers of defined diameter into a cylindrical roving package. The product is designed to open easily in a muffler resulting in good noise reduction by completely filling the content of the automotive exhaust silencer.

Designation and technical data:

JM designation	Region	Glass type	Sizing designation	LOI content [%]	Moisture content maximum [%]	Linear density [yield / tex]	Filament diameter [µm]
PR 440 4800 058	EU	E	058	0.3	0.15	103 / 4800	23

Benefits:

- Excellent unwinding and run-out
- Easy filling
- Easy opening and perfect blow-out
- Low emission
- Noise control
- High temperature resistance

This is an example of a typical application for KYTex® 058

Bobbin dimensions:

	Inner diameter	Outer diameter	Height	Typical weight	Bobbin wrap
PR 440 4800 058	160 mm	300 mm	255 mm	20 kg	Tack wrap

The values listed represent min level.

Packaging:

	Bobbins per pallet	Pallet weight appr.	Pallet dimensions	Packaging wrap
PR 440 4800 058	48	960 kg	1285 mm x 950 mm	Stretch foil

Storage:

It is recommended that the glass fiber products are stored in a cool and dry environment. Recommended temperature range of storage is 10°C - max. 30°C (50°F - max. 86°F) and relative humidity between 50 – 75%. The glass fiber products should remain in the packaging until just prior to use. The pallets should be single stacked..

Values:

All data represent typical average values.
